SUMMARY

My goal is to pursue my career in the dynamic and ever-evolving world of technology. My objective is to learn and grow within a collaborative team, applying my technical knowledge to solve engineering challenges. I am committed to staying updated on emerging technologies and leveraging my skills to make meaningful contributions to the field of computer engineering. Excited to embark on this journey, my aim is to contribute effectively to the success of innovative projects and continually enhance my expertise in the industry.

INTERNSHIP

WEB DEVELOPMENT | INFOLABZ IT SERVICES PVT. LTD.

- Engaged in a dynamic web development internship where a news website was created using Python and the Django Framework. Acquired hands-on experience in implementing key concepts of web development, including server-side scripting, database integration, and also learned API utilization.

WEB DEVELOPMENT | THE WEBSITE MAKERS

- Explored the core architecture of WordPress, understanding the structure of themes, plugins, and how they interact. Delved into the WordPress template hierarchy and the role of key files like style.css and functions.php.

PROJECTS

INSTANT QR

- Instant QR enables users to create QR codes on-the-fly, offering a hassle-free experience for diverse applications, from sharing contact information to promoting web links. The website's focus is on providing instant and convenient QR code generation for various user needs.

RASOI DIARIES

- Rasoi Diaries offers a visually appealing and user-friendly interface for browsing and contributing recipes, encouraging active user engagement.
- Ensuring accessibility across devices, Rasoi Diaries utilizes responsive design techniques with CSS media queries, allowing seamless navigation and optimal viewing on various screen sizes, including desktops and mobile devices.

SNAPNEWS

- Snapnews is a modern, user-friendly website designed to deliver live news updates in a concise and accessible format.
- Fetches real-time news data from an API, providing users with up-to-the-minute news summaries.
- Snapnews aims to revolutionize news consumption by offering a streamlined platform that combines responsive web design.

RPS | CLASSIC GAME REIMAGINED

- RPS is an engaging website that revives the timeless Stone, Paper, Scissors game, bringing a digital twist to this classic and universally loved pastime.
- Crafted with a blend of HTML, CSS, and JavaScript, RPS offers an interactive and visually appealing gaming experience.
